

Simplify *your* Communications

Repartee® solutions bring you the power of centralized message control by allowing you to manage your communications over the telephone or from your PC. Simplified message management from a single mailbox gives you the freedom to communicate from almost any location, using the device of your choice. The foundation for a full-featured, proven and affordable unified messaging solution begins with Repartee.

Expanded Features from an Industry Leader

Each Repartee system builds on its proven technology with this latest release, offering many new features including:

Enhanced ViewApps. 32-bit unified messaging applications ensure compatibility with the latest technology our customers deploy. We have also improved the look and feel, menus, toolbars and more.

Text-to-Speech. With mobility in mind, we are excited to offer Text-to-Speech (TTS) for Microsoft® Exchange® 5.5 and 2000. This feature enables Repartee CTI users to access, listen and respond to e-mail messages promptly via the telephone.

Mailbox Manager. This exciting new application brings many voice mail features to your desktop PC. The new

graphical user interface (GUI) gives subscribers the ability to set up and control personal mailbox settings in addition to the Telephone User Interface (TUI). With this new tool users may modify greetings, security code, notification, groups, conversation preferences and much more.

Affordable

Repartee solutions offer advanced unified messaging, voice mail, fax and automated attendant functionality, helping your organization become more responsive. Through its optional suite of unified messaging and call management applications, Repartee CTI provides you with the most cost-effective unified messaging solution available.

Proven and Reliable

Repartee systems are built upon a proven and flexible platform that delivers feature-rich performance, superior reliability and sophisticated functionality. Your business will benefit from better customer service, increased accessibility, and investment protection in your communications infrastructure.

Active Voice knows that reliability is paramount to your business. We have partnered with industry leaders such as Intel® and Dell® to bring you the highest quality solutions available. As your business grows, Active Voice will have a competitive communications solution to meet your needs.

Repartee CTI at a Glance		Repartee VP at a Glance	
• Unified Messaging	• Ports: 4 – 96	• Voice Mail	• Ports: 2-8
• Hours of Storage: 320 – 2500	• Subscribers: 65,000	• Hours of Storage: 320	• Subscribers: 200
• Transaction Boxes: unlimited	• Fax: 1 – 8 ports	• Transaction Boxes: unlimited	• Fax: 1 port
• Hospitality (guest mailboxes): 65,000		• Hospitality (guest mailboxes): 250	
• Text-to-Speech: 4 sessions			

Repartee products were pioneers in the unified messaging industry with the first release in 1985. Repartee merged the voice and data world with the release of Repartee CTI in 1993. Active Voice is proud to deliver the latest version of Repartee, which is packed with the new features our

customers have been asking for. Whether you choose our fully unified CTI solution or our VP solution, you can rest easy knowing your business is using one of the most proven and reliable messaging systems on the market.
