PRESIDENT OF DIGITEL SYSTEMS INC. INVITED TO CONVENTION RESERVED FOR INDUSTRY LEADERS

Jerry McKenzie, President of Digitel Systems Inc., to Share His Vision on the Future of Unified Communications

Vancouver, British Columbia — May 24, 2012 — Digitel Systems Inc., a leading provider of unified communications, announced today that President, Jerry McKenzie, has been invited by Technology Assurance Group (TAG), an international organization representing nearly \$350 million in products and services in the industry, to share his vision on the future of unified communications with some of the industry's top manufacturers, vendors, suppliers and resellers at TAG's national convention. The 12th Annual TAG Convention will be held in New Orleans, Louisiana on September 9th-12th.

With more and more businesses headed to the cloud, networking and IT infrastructure has grown substantially more complex in the past year. Today's unified communications providers require unprecedented levels of technical expertise, industry foresight and customer service in order to remain competitive.

Digitel Systems Inc. has been invited to attend this year's convention due to its superiority in each of these areas.

"Digitel Systems Inc. has dominated their marketplace for quite some time," states Brian Suerth, Executive Vice President & Partner of TAG. "They are continually striving to stay on the leading edge of technology, and that's why no one can compete with them. Digitel Systems Inc. knows what's coming down the pipeline and how it's going to ultimately affect their customers. That's why they are able to proactively support their customers and implement powerful technologies before their competitors even realize that they're behind the curve."

Several industry topics will be covered at the convention and best business practices will be revealed in areas ranging from cloud technologies, virtualization, hosted solutions, managed IT services to customer service. "The only constant in life is that it never stops changing. It's no different in our industry," commented Jerry McKenzie, President of Digitel Systems Inc.. "That's

why we continue to remain active in the industry and share our views at these kinds of events. We always come back to the office with something new and valuable that we can pass on to our customers. We're passionate about what we do and we feel that it's our duty to our customers to find out what's on the horizon. We're often able to leverage new developments and find ways to boost our customers' productivity, and more importantly, their bottom line profitability."

Digitel Systems Inc. is among the top unified communications providers in the nation and its success is due largely to its innovative approach to business.

ABOUT DIGITEL SYSTEMS INC.

Founded in 1984, Digitel Systems is a leader in voice communications in British Columbia. The company's mission is to increase its customers' profitability, improve their productivity and give them a competitive advantage by implementing the right technology. Digitel

Systems is the only provider that protects its customers from the two risks of technology – obsolescence and cost. Digitel Systems has earned the position as the market leader and it customers' business through quality products and services.

As a premier member of Technology Assurance Group, Digitel Systems is the ultimate resource for business phones systems, using voice over internet protocol (VOIP), session initiation protocol (SIP) and audio/web conferencing. Digitel also provides comprehensive disaster planning

and recovery for local and wide area voice networks.
