SHIPPING NOW DIGITEL'S New Gigabit ZIP 37G IP Phone

Vancouver, BC, September 26, 2013

DIGITEL, a premier provider of innovative unified communications solutions that empower businesses to collaborate effectively, today announced the latest exciting model in the growing ZIP 3 series of IP phones. The stylish ZIP 37G is targeted at the busy professional looking for an attractive phone packed with features.

The ZIP 37G features include:

- * Vivid 480x272 pixel color display
- * Dual Gigabit Ethernet ports
- * 6 LCD labeled keys supporting up to 20 programmable soft keys
- * LDAP contact directory access

In addition, the unit incorporates a dedicated headset port with Electronic Hook Switch (EHS) support (requires EHS 3xi adapter) and integrates with the ZIP 340M LCD Expansion Module.

The ZIP 37G is fully compatible with Zultys award winning MXIE Unified Communications desktop client, allowing users to perform call control tasks such as answer, hold, transfer, park, and initiate calls from their computer without needing to touch the phone.

The ZIP 37G joins the existing line of DIGITEL IP phones. The ZIP 37G may be ordered using the following part numbers: Click here <<http://zultys.us2.list-manage.com/track/click?u=0dc59b0e686ed013a2974e7a5&id=455cdb18bf&e=dbc193afc5>> to download the ZIP 37G product brochure.

The ZIP 37G phones is supported in the 8.0 maintenance release. The phone will also be supported in release 7.2.4 and 8.0.3 via patches.

Best Regards,
DIGITEL Marketing
